

# Surface restoration is a green remodeling alternative

Miracle Method, central Ohio's largest surface restoration company, is doing its part to restore damaged and dated bathroom fixtures, tile and countertops, eliminating the need for replacement, and reducing the amount of unnecessary waste clogging landfills.

According to the National Association of the Remodeling Industry new home building generates between 3 and 5 lbs. of construction waste per square foot of home. By contrast a remodeling project can generate between 70 and 115 lbs. of waste per square foot.

Porcelain, steel and even fiberglass bathtubs do not need to be replaced just because they are no longer easy to clean or because they are the wrong color. Miracle Method gives new life to fixtures by repairing rough surfaces and chips, changing colors and restoring surfaces to look and feel like new. Miracle Method's process works equally well on porcelain, tile, cultured marble, fiberglass and acrylic surfaces.

**Miracle Method of Columbus can restore old claw-foot bathtubs to a like-new condition. Call (614) 801-0432.**

Miracle Method, a full-service refinisher serving central Ohio, can restore tubs and showers to like-new condition for as much as 70 percent less than replacement, and within 24 hours. With the Miracle Method process, homeowners avoid the expense of removal and replacement of bathtubs, related flooring, tile and plumbing hardware.

Professional surface refinishing by Miracle Method is not a cheap fix, but a proven

restoration process that can add 15 to 20 years of life to a bathtub. Resurfacing not only saves homeowners time and money, but the hassle and mess of remodeling. Miracle Method's process is unique in that it is the only system that does not use toxic etching acids and has a 28-year proven record.

If your bathtub or shower is hard to clean, chipped or cracked, or the color is no longer compatible with your remodeled bathroom, why replace it when you can refinish it?

Miracle Method provides surface restoration and repair on many surfaces, including porcelain, enamel, fiberglass, acrylic, plastic laminate and cultured marble for showers, bathtubs, sinks and countertops. As a full-service refinisher, Miracle Method's surface restoration process includes buffing, cleaning and re-caulking. In addition, all technicians are company employees, not subcontractors, who use state-of-the-art equipment and materials.
