

Resurfaced countertop, vanity give home updated look

If you're looking to give your bathroom or kitchen a new look, but don't have the money for a full remodel, consider resurfacing your vanity or countertop instead of replacing them.

Jason and Melissa Wheeler decided that their bathroom and kitchen needed to be updated. The makeover included refacing the cabinets as well as resurfacing the laminate countertops and vanity areas. Although Jason did some of the remodeling himself, they got several estimates for resurfacing the counters and vanity. They decided to hire Miracle Method because of the price and quality. "Some of the other remodelers wanted to just put laminate over the existing countertop," Jason explained. "Miracle Method was 40 to 50 percent cheaper than resurfacing with laminate."

Miracle Method resurfaced the counters with a stone look finish, matching the surfaces in both the bathroom and kitchen. The Wheelers are pleased with the results.

"My wife and I are very happy," Jason said. "Everyone who comes over raves about the more modern look. Even the cabinet guys were impressed!

"They were very professional and cleaned up everything when they were finished. We've recommended Miracle Method to family and friends already. It
