Miracle Method repairs and revitalizes
outdated, damaged community restroom in Friend Hall

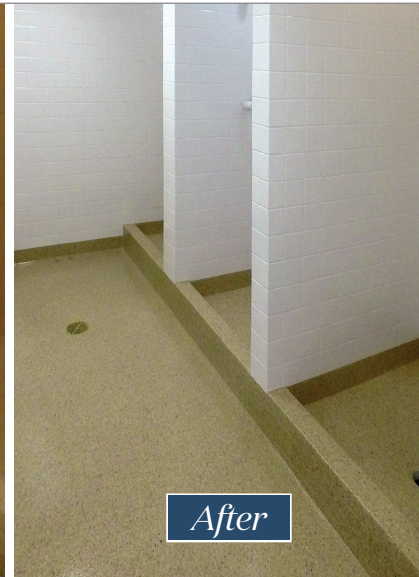

Before

After

Before

After

The refinished floors, walls and partitions look like new – with the added benefits of an antimicrobial clear coat finish.

The Problem

Not only were the restrooms in Friend Hall at Potomac State College (PSC), unattractive and outdated being constructed in 1961, they were also impossible to clean. While the shower pans and bathroom stall partitions were aging disgracefully, the terrazzo floors were plagued with cracks. The Facility Director needed an affordable and time effective solution to create a cleaner environment for student residents.

The Miracle Method Solution

The Facility Director's solution presented itself while attending the SRAPPA Conference. Miracle Method demonstrated the process to refinish terrazzo floors, tile, walls, shower stalls, and bathroom partitions. Miracle Method would upgrade the look with its Natural Accents stone look finish and its antimicrobial clear coat to protect the surface from bacterial growth.

The Process

Miracle Method technicians began their refinishing process after PSC's maintenance staff removed all fixtures that were not slated for refinishing. First the technicians thoroughly cleaned all surfaced to eliminate soap, scum, oils, mold, and mildew. Loose tiles were repaired and necessary grout work was completed. The terrazzo floors, tile walls, and bathroom partitions were refinished to create a completely sealed surface, fashioning a more attractive and easier to maintain bathroom.

The Results

In just four days, at a fraction of the cost of removal and replacement, Miracle Method was able to update the look and add years of life to a dated restroom! The Facility Director was more than impressed with the proprietary refinishing process which was an affordable and time effective solution that created a better student living environment. Residents, family, and staff alike have a clean and updated bathroom that now exceeds expectations.

The Facility Director is eager to contract Miracle Method to complete the remaining restrooms in Friend Hall and other similar projects on the Potomac State College of West Virginia University campus.
