CASE STUDY

IRT Finds a Great Solution!

300+ bathtubs and surrounds repaired & refinished
in a fraction of the time it would have taken for replacement

The Problem

Vantage on Hillsborough Apartment Homes in Tampa Florida started a complex-wide renovation project to update all their apartments. Turn times would be critical to stay on schedule.

The bathtubs were worn, dirty, and damaged. Tile surrounds were outdated, with damaged and mildew-stained grout. Where plumbing repairs had been made, there were missing or mismatched tile. Instead of completely replacing the old bathtubs and tile, Miracle Method had an affordable, time-saving solution.

The Process

After the maintenance department removed the fixtures, Miracle Method thoroughly cleaned the tubs and tile to remove all impurities. Repairs were made and the prepped surfaces were refinished. Multiple units were completed on a prearranged turn schedule.

The Solution

The repaired & refinished tubs and surrounds look like new and were completed in a fraction of the time it would have taken for replacement. The bathtub and tile surrounds are completely sealed with a durable non-porous finish making the care and cleaning a snap for residents. Impressed with results, the nationwide management company – IRT Living – is utilizing Miracle Method in many other markets.
